  - ~ mantels

**A little more about myself and our work**

*We take great pride in our workmanship and have access to a very good circle of subcontractors when outside help is required. I grew up in the Parry Sound-Georgian Bay area and my wife is also from the Hurdville area. We are very familiar with the people and the lake conditions as well as what works well for the area. Trust your cottage project to us for custom, one-off ideas with workmanship in which we take great pride. Specializing in pine, cedar and fir interiors, tile backsplashes, showers & tub surrounds, and exterior finishes to complete renovations. We feel that your cottage is yours, therefore, we will work with you and help get all your visions applied to your new project. We offer complete start to finish assistance with all aspects of the paper work which may be required for your project.*
